# Antisemitism in the Nordic Countries

## Comparative Insights and Future Directions

**Tuesday, 1 December 2026 • 09:30-15:00 • Rabin Building, 10th Floor • University of Haifa**

Using a comparative lens, the discussions will examine similarities and differences among the Nordic countries, drawing on historical scholarship as well as recent survey and interview research on contemporary antisemitism and the experience of Jews and Jewish communities in these countries.

The seminar will consider what shared patterns and national particularities can tell us about the conditions under which antisemitism develops, is perceived and is studied, and how these insights can contribute to efforts to counter antisemitism and to wider international research.
